

## IN NORWICH FIFTY YEARS AGO

News of a big wreck on the New London Northern railroad at Yantic stirred Norwich fifty years ago, but although many cars had been damaged no loss of life was reported. Wrecks and news of losses by Norwich people in a Boston fire were only a few of the items contained in The Bulletin for the week of Nov. 18, 1872. Some items follow:

Sunday, Nov. 18, 1872—One of the few remaining stores in the city that were erected during the last century is now to be swept away by the hand of public improvement—we refer to the three-story building located on the corner of Water and Market street and recently occupied by Andrew and Nash, shoe and retail grocers. Prior to 1873 another store occupied and perhaps erected by Levi Huntington, then one of the leading merchants of Norwich had stood on the site of this building. His home and numerous other buildings of that day stood on Water street. On Nov. 26, 1871, one of the most destructive fires ever known in Norwich broke out in the building belonging to Hubbard and Green, which spread out 15 stores and residences on that street. As there were no insurance companies in those days friends of those people who had been burned out went into the woods and felled white oaks and soon the buildings were replaced. It is on this site that the new building will be erected.

Jordan, Marsh & Co. of Boston sent a check for \$10,000 to be accounted for to the firm who erected themselves as really, say the construction at Boston. Norwich friends will receive a portion of the money.

## ECHOES FROM THE LODGE ROOMS

The regular meeting of Norwich Post No. 1396, was held Tuesday night at Owl's hall, main street, with a good attendance. President Edward Cook presided over the business session. Following the anniversary meeting refreshments will be served. It is expected that every member of the lodge will be on hand to celebrate the occasion.

FOREIGN WAR VETERANS. Applications by disabled veterans to secure vocational training must be made before Dec. 15 next, which is the last date for receiving such applications under the law. Notice to this effect has been sent out by the U. S. Veterans' Bureau through its branch offices, and the veterans' organizations are calling attention to the statute. Capt. E. S. Estlin, Jr., legislative chairman of the Veterans of Foreign Wars of the United States, has advised all posts of the V. F. W. to canvass their territory to see that all ex-servicemen have been notified.

The appropriation bill passed by congress on June 16, 1921, provided: "That any person entitled under the provisions of the 'vocational training act,' as amended, to take vocational training must make application within 18 months from the date of the approval of this act."

It is that enactment which fixes the time limit for applications for training. There are no exceptions to the law. The law there will be no more applications for training received after the 15th of next month, and the government's training program will therefore consist in completing the education of those who shall have applied before the limit date.

Col. Leice, head of the vocational training department of the Veterans' Bureau, said this week that the bureau was prepared to abide by the coming date fixed by law and had not ahead congress to alter the statute. He was not aware of any definite effort to have the date extended but said there might be such an effort by veterans' organizations.
